Customer Carbon Footprint Tool

Jul 2021 - Dec 2021

Your carbon emissions summary

Compares your carbon emissions with on-premises computing equivalents

0.1 MTCO2e

Your estimated AWS emissions

0.2 MTCO2e

Your emissions saved on AWS

Your emission savings

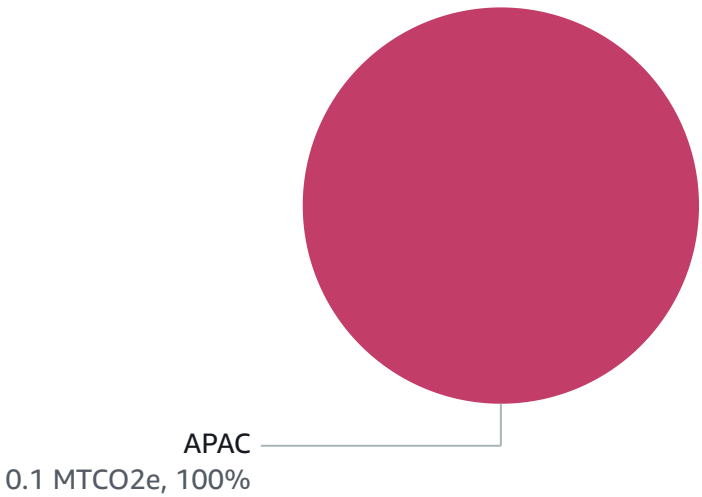
0.1 MTCO2e

Saved from AWS renewable energy purchases

0.1 MTCO2e

Saved by using AWS computing services

Your emissions by geography



Your emissions by services

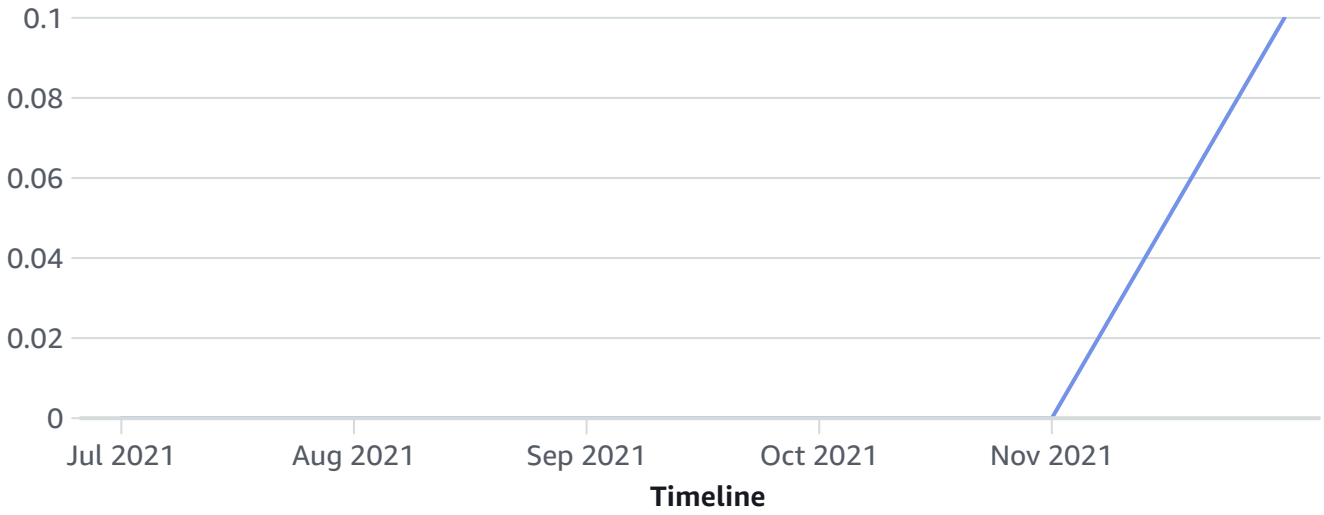
Service	Carbon emissions	%
EC2	0.1 MTCO2e	100%

Service	Carbon emissions	%
S3	0.0 MTCO2e	0%
Other	0.0 MTCO2e	0%
Total	0.1 MTCO2e	100%

Your AWS carbon emission statistics

Month

Carbon emissions (MTCO2e)



Path to 100% renewable energy

Based on your current AWS usage, this chart represents projected changes in your yearly emissions as AWS works toward its goal of powering our operations with 100% renewable energy. Note: The date range you choose in the previous section doesn't impact the chart results.
