**FREIGHT FORWARDING
PLATFORM**

Patang revolutionizes the digital transformation journey for Freight Forwarders by offering innovative digital platforms that streamline and accelerate progress in short, manageable cycles.

The Challenge

- ✓ Freight Forwarding customers often have to manage and track a large number of bookings simultaneously, which can be a complex and time-consuming task.
- ✓ Without proper visibility, it can be difficult for customers to know when a shipment is expected to arrive, leading to uncertainty and manual tracking processes.
- ✓ It is also difficult to manage and track large number of invoices and financials which can lead to confusion and potential errors, making it difficult to reconcile accounts.
- ✓ Without a system in place for Shipping documents it is difficult to manage and access all documents in a centralized and organized manner.
- ✓ The process of creating and submitting shipping instructions can be time-consuming and confusing. Without a streamlined system, it is often difficult to ensure that all necessary information is included and submitted in a timely manner.

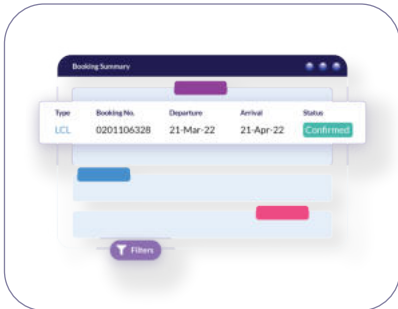

The Solution

Patangs Freight Forwarding platform is designed to streamline the operations and management of Freight Forwarders by providing their customers with a self-service portal to track shipments, view invoices, upload shipping documents and many more.

Our Success so far

Benefits for Your Customers

Booking Summary

View all your current and past bookings with complete information on single screen. Easy navigation and filter help access sorting of your booking

Statements of accounts

Get your statements of account summary on single screen to check your Outstanding and Overdue amount to manage your finance. Easy dashboard and filters allow to view all your Unpaid & Partially paid, with an option to download the invoices

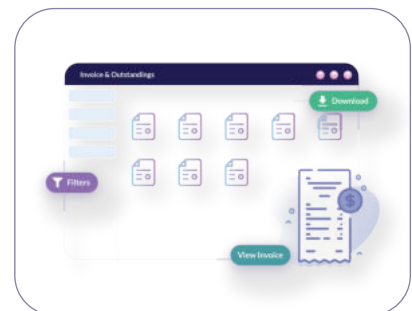

Shipment Tracking

Now get real-time shipment tracking whenever you need it. Search by container, HBL no. or by booking no. Also, receive automated shipment milestones alerts

Shipping Instructions

A simplified Shipping Instruction form to create a new Shipping Instruction for a specific booking. Select the respective row & click add SI button, you will get a form prefilled with booking data, fill in the respective details.

Invoices

Get list of invoices on single screen. Easy dashboard and filters allow to view all invoices with an option to download.

Document management

Hassle-free management of all your shipping documents at a single place with an option to download.

Benefits for Freight Forwarders
