patang™

GLOBAL VISIBILITY PLATFORM

Track your ocean, air, and road shipments with ease and accuracy using our user-friendly dashboards and analytics.

A SaaS Platform that simplifies visibility.

SIGN UP FOR FREE

Connect with Patang instead of 200+ Carrier Lines (Ocean, Air, Road)

We gather information from various sources, including carriers, electronic logging devices (ELDs), transportation management systems (TMS), etc. We provide real time visibility with one single platform and save your huge integration efforts with Shipping Lines, Airlines, Road Transporters.

Share Real Time Visibility Information with Your Customers & Partners

Keep your partners, shippers, customer service, and customers informed well before with each and every shipment through Real-Time notifications and alerts, enabling them with better logistics decisions and speedy data access.

Be accurate & plan your supply chain

Get the most reliable & accurate tracking, Predictive ETA & ETA. Use this information to plan your supply chain, optimize inventory, reduce dwell & detention costs and minimize overall logistics costs!

Our Strength:

125+	100+	100+	Tracked annually	
Network of Global Shipping Carriers	Network of Global Airlines	Road Transporters	500K+ Ocean shipments	250K+ Air shipments

Advantages

SaaS Model

Industry First BL based Tracking

Measure shipment performance

Why Patang Global Visibility Solution?

Patang is a leading Global Visibility service provider worldwide streamlining the process of obtaining shipping, air and road freight information by offering a centralized, real-time interface. This eliminates the need for manual data gathering from multiple carriers, saving valuable time, costs and resources. The platform can be used in **a SaaS model** or alternatively, integrated with your **existing ERP system**. Our Dashboards provide advanced AI-powered analytics to support informed decision making and optimization of supply chain.
